

# Foliar Yield Enhancement with soyScience™ Foliar Feed

Research in other states has indicated that the product soyScience can enhance soybean yield. This product contains a balanced blend of nitrogen, potassium, boron and manganese.

## PROJECT GOALS:

The goal of this project is to discover the level of yield enhancement under Iowa soils and weather patterns.

## WHAT WE NEED FROM YOU:

- Apply soyScience product as a foliar application according to the plot layout

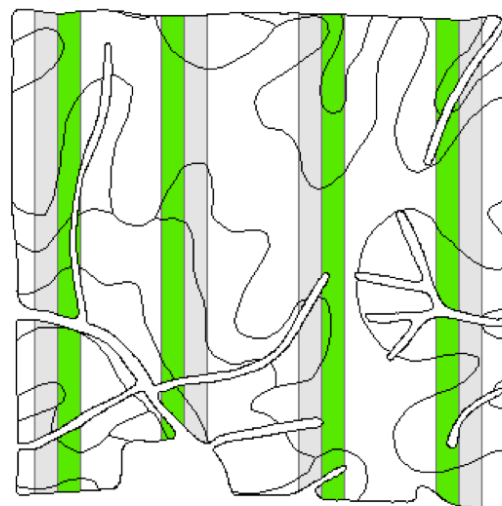

Treatments:

1. No soyScience
  2. soyScience @ 2 qt/A to R1-R3 stage soybeans
- soyScience can be tankmixed with glyphosate or other crop protection agents
  - Manage crop and provide as-applied and yield monitor data
  - Harvest strips with the row

## WHAT ISA WILL DO FOR YOU:

We will provide:

- Imagery of the trial field
- A summary of trial results from your farm
- An aggregated data summary for all similar trials combined

### Treatment

-  No soybeanScience
-  soybeanScience
-  Not Plot

## Sample Plot Layout:

1. Select a field with high variability in terms of yield, soil types or topography
2. Suggested strip width is one round of the planter
